

For nearly a year, NewsCenter Five's Ed Harding and Liz Brunner, along with colleagues at WCVB and volunteer teams from across the city, have been conducting Extreme Makeovers in several Boston neighborhoods.

They are doing so as part of ***Extreme Makeover: Boston Edition***, WCVB-TV's local version of the ABC Sunday night hit ***Extreme Makeover: Home Edition***.

This fall, Channel 5 will provide an Extreme Makeover for the South End's **Boston Living Center** and we are delighted to be participating.

For months already we have donated Project Management services and collaborated with both Channel 5 and the Boston Living Center to ensure the facility is ready for its official face-lift and reveal this fall.

Please check back here regularly for updates on the Extreme Makeover. To learn more about the Boston Living Center, please visit [www.livingcenter.org](http://www.livingcenter.org).

If you are interested in contributing products or services toward the Extreme Makeover or want to help those living with HIV and AIDS, please contact Rob Levinson at [rob@mavensandmoguls.com](mailto:rob@mavensandmoguls.com).

### **About the Boston Living Center**

Since 1990 the BLC has been a non-profit, resource and community center that fosters the wellness of people living with HIV and AIDS.

They offer hot meal service (40,000 served annually), health education, treatment information and ongoing support services.

Their drug-free, confidential, and culturally diverse environment is safe and uniquely enables members to live productive lives filled with family, friends and hope.
